#### Summary:

Wise Recover Lost Documents aims at recovering lost or deleted documents. You may lose your critical data due to accidental/intentional deletion of document, even after 'shift+del' deletion or empty recycle bin, Wise Recover Lost Documents is able to recover the files. Wise Recover Lost Documents supports wide kinds of lost documents, such as MS Office documents, Acrobat, Archive, Audio, Video, Image, Backup, Database, and Internet files etc. are supported by Wise Recover Lost Documents. Documents are so important in our day to day life that our work can hardly be carried on without them. When we say document, it often refers to the Microsoft Office Document. I believe we all have been bothered by a "documents can't be found" issue. What will you do if your documents are lost? If you delete a document, it has been moved to the Recycle Bin. You can easily restore it from the Recycle Bin without any trouble. But if you've emptied your Recycle Bin, you cannot find it by yourself any more. You need the help of a document recovery freeware. So it is so important and helpful to search the deleted documents in the Recycle Bin after you delete the important documents by mistake. Wise Recover Lost Documents is a powerful document recovery software that can help you to undelete files, even if you've emptied your recycle bin. It can also recover lost files after a system crash and the files damaged by mistake under

Win XP, Win7, Win vista, Win 2008 and Win 2003. Lost documents can occur because of any of the below possibilities: Document was mistakenly deleted; Document was corrupt and deleted by scandisk; Another program deleted the document; Document is password protected.

So you should have good habit to backup all documents to avoid annoying trouble. How to recover lost documents via Wise Recover Lost Documents? 1. Download Wise Recover Lost Documents, install it and launch it. Click the "Start Scan" button on the main window of Wise Recover Lost Documents. 2. You can see the list of all volumes found on your computer, select the exact drive and click the "Next" button to start scanning. If you can't see the drive, please make sure your external drives are connected, and click 'Refresh' button. 3. It will take about 2-10 minutes to scan, it depends on your disk size and files amount on the disk. After scanning is finished, you can preview text document and picture files. Simple procedure, amazing effect!
